

TERRATEC T1

Mini DVB-T stick

- Compact DVB-T Stick (DTT, Freeview)
- Supports HDTV and Dolby Digital
- Connection via USB
- Incl. Remote control and DVB-T antenna

The TERRATEC T1 is the mini DVB-T stick for quality-aware users. Simply plug it into a free USB port, and the small stick transforms netbook, laptop and desktop computers into a full-function television with full HDTV support (including Dolby Digital) and many additional features. The TV-software allows operation on all household computers, extensive accessories with a remote control and DVB-T antenna are included in the shipping package.

Television with ultimate variety

Regardless of whether you want to follow the latest developments on the stock market or keep up to date with world news in your home office, want to watch a football match with friends or easily record all transmissions of your favourite series or current feature films in your living room - the TERRATEC T1 makes it possible. So your computer easily becomes the second television.

Software

The Software developed in Germany allows the TERRATEC T1 to be used everywhere. It is simple to use, but also full of options for optimal configuration to your needs. Time-shifted television, manual and scheduled recording in lossless quality on hard disk, electronic programme guide (EPG) and teletext plus many other interesting functions deliver a fully new television experience.
